# Europe Ministry Center

## Mission Statement:

The Barn Project  
Kandern, Germany

**Need:** We want to be as effective as possible in reaching Europeans with the life saving message of Jesus Christ. One of the greatest challenges Greater Europe Mission has had to face in recent years is to provide inexpensive housing for short-term missionaries and teams. We have also outgrown our current rented office space as our ministry is increasing.

**Project:** A barn has been purchased in Kandern, Germany, which will become the Europe Ministry Center. It is structurally sound (solid stone walls over 2 feet thick and a newer tile roof) and would provide 4 units of housing for short-term missionaries and enough office space to meet all of our needs. This will reduce the cost of ministry and provide new opportunities to serve Christ in Europe.

In order to properly renovate this building so that GEM continues its effective ministry in Europe, we need many partners to stand together

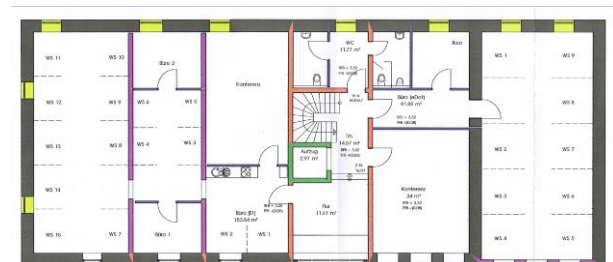

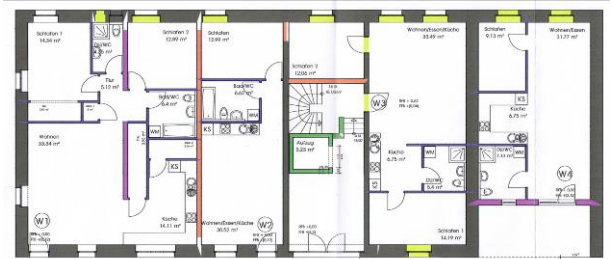

## Description of Work:

We will be assisting the contractor on a daily basis as well as completing all of the interior renovation work. This project will run from the fall of 2007 well into the year 2008. We can use both skilled and unskilled labor.

## Workers needed for:

Greater Europe Mission needs individuals/teams who can come to work in the following areas:

- |                      |                             |
|----------------------|-----------------------------|
| Electrical           | Structural                  |
| Finish Work          | Framing [Timber]            |
| Landscaping          | Masonry [Brick Work]        |
| New Construction     | Reinforced Concrete         |
| Plumbing and Heating | Framing [Steel]             |
| Renovation           | Installing Windows or Doors |
| Restorative          |                             |
